AMBOISE, SHARE THE KINGS' EMOTIONS

The most beautiful panorama in the Loire Valley

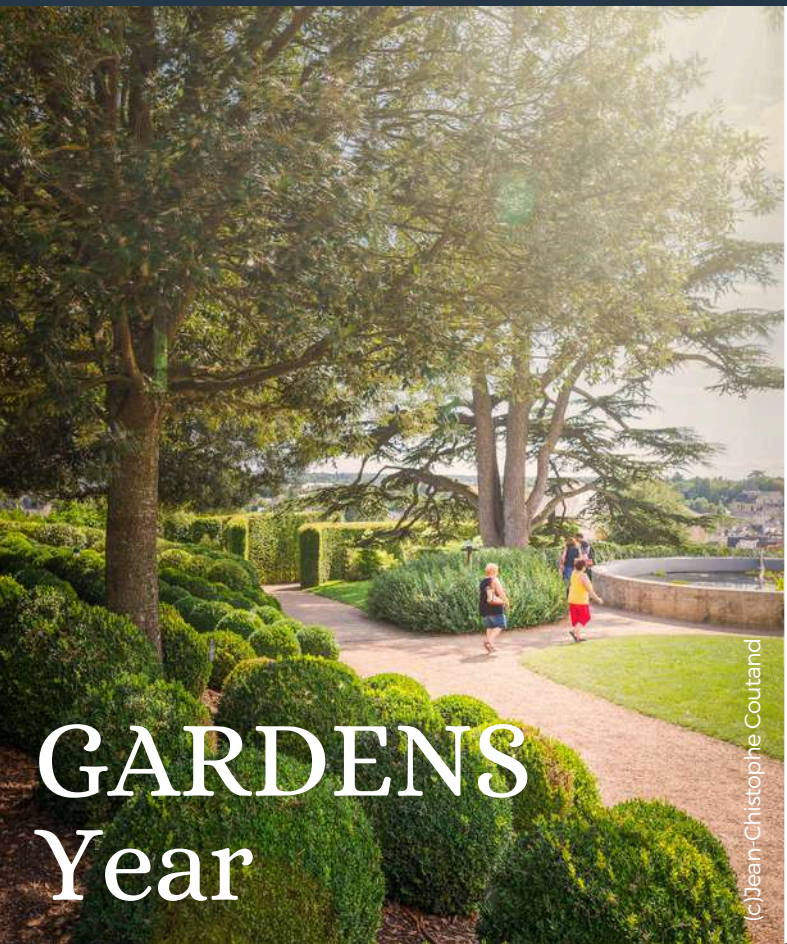

Suspended between the sky and the Loire, the royal château of Amboise's terraces form an exceptional balcony overlooking the UNESCO World Heritage landscape. Offer your clients this picture-postcard view, which will be the highlight of their trip.

The Renaissance palace of the French kings

Pomp, beauty, creativity, and extravagance... When the kings of France decided to create superb palaces inspired by the Italian Renaissance, their architects designed architectural jewels. Amboise, the favourite château of the iconic king François I^{er}, is a discovery not to be missed.

The location of Leonardo da Vinci's tomb

One of the most famous geniuses in the history of humanity rests in peace in the royal château of Amboise. A visit to his tomb will certainly be a key moment during their Loire Valley trip.

GARDENS Year

HISTOPAD

A journey through time

The latest generation Histopad technology makes it possible to dramatically enrich the discovery of the royal castle of Amboise with 3D reconstructions of the Logis, interior decorations and the reproduction of scenes of life in the courtyards. You will also be able to virtually discover the interior of the chapel during its closure.

No supplement and by reservation for groups. Text commentary in 12 languages.

(c) Jean-Christophe Coutand
